

Rajay Ajay Jain

Aspiring Data Analyst

jainrajay2001@gmail.com | 8769175248 | [LinkedIn](#) | [GitHub](#) | [Portfolio](#)

SUMMARY

An aspiring Data Analyst with an engineering background, skilled in Python (Pandas, NumPy), Power BI (DAX, Power Query, Star Schema), and Advanced Excel. Experienced in analyzing large datasets (780K+ records), evaluating \$400M+ financial portfolios, and building automated data pipelines and interactive dashboards that improve reporting efficiency and drive data-driven decision-making.

EDUCATION

B.Tech in Electrical Engineering, *Madhav Institute of Technology and Science*
7.85 CGPA

07/2020 – 07/2024
Gwalior, India

SKILLS

- | | | | |
|---------------------|------------|-----------------|-------------------------|
| - Python | - SQL | - MS Excel | - Power BI |
| - Data Dashboarding | - Data ETL | - Data Analysis | - Business Intelligence |

CERTIFICATES

- | | | | |
|---|--|---|--|
| - Preparing Data for Analysis with MS Excel | - Harnessing the Power of Data with Power BI | - Data Analysis and Visualization with Power BI | - Career Essentials in Generative AI by Microsoft and LinkedIn |
|---|--|---|--|

PROJECTS

Predictive Sales Data Intelligence

- Modeled historical retail metrics across 45 Walmart stores using advanced data aggregation, identifying a 10%+ surge in weekly sales driven by holiday promotional periods and localized macroeconomic trends.

Global Salary Market Analytics

- Engineered interactive executive dashboard to analyze 780,000+ tech job postings, utilizing advanced DAX functions and data modeling (star schema) to visualize a 20%+ salary variance across localized regions and high-demand skill categories.

Market Analytics & Intelligence

- Processed 780,000+ tech job postings using Pandas and Hugging Face, engineering text-parsing pipelines and Seaborn visualizations to uncover global salary structures and high-demand skill trends.

Credit Risk & Portfolio Analysis

- Evaluated a \$400M+ bank loan portfolio across 35K+ active accounts; built interactive risk-tracking models that identified a 13.5% non-performing loan (NPL) rate, isolating critical debt-to-income (DTI) thresholds to mitigate potential credit losses by 12%.

Workforce Intelligence Dashboard (Excel)

- Structured a dynamic HR dashboard aggregating salary metrics across 10,000+ technical professionals and 12+ distinct roles; implemented advanced XLOOKUP modules and Pivot Tables that automated workforce profiling, accelerating compensation review workflows by 40%.

Market Intelligence Architecture

- Market Intelligence Architecture: Query-engineered a comprehensive PostgreSQL database analyzing a dense relational footprint of 780,000+ technical job posting assets to translate unstructured market configurations into actionable, executive-level workforce insight templates.

LEADERSHIPS & ACTIVITIES

Aerospace Club, *Content Writer Head*

- Led content creation initiatives and coordinated communication activities for technical events and club engagement.
